Attention: Mr. Vishal

Dear Sir,

Re: Tariff Classification Opinion on Plywood

We refer to your application for tariff classification opinion on the above item which was lodged on your behalf by your customs agent.

The examination and verification of the sample submitted reveals that the commodity is a Plyboard made of pine through the thin layers of "plies" of wood veneer that are glued and pressed one on the other, thus gives the ply more strength and reduces warping.

Plywoods is often used for construction of structure, interior, exterior framework and marine structures.

In view of above the pine plyboard is appropriately classifiable under **HS 4412.39.00**

We hope that the above clarifies your doubt of the above mentioned commodity and for any further clarification please liaise with Tariff and Trade Section, Suva.

Yours faithfully,

Joana Duabauhau
