Dear Sir,

RE: Tariff Classification Opinion – CCTV Camera and Video Recorders imported Together in sets.

We refer to your application for Tariff Classification Opinion on CCTV Camera and Video Recorders imported together forming sets.

According to our analysis it is noted that both items will be used together depending on each other. The CCTV camera will capture the image which will be decoded and documented by the recorder. The image will then be produced from recorder through the monitor.

By Virtue of Section Note 4 to chapter 84, the CCTV camera performs the main function of taking the image while the recorder plays the secondary role of decoding.

In our opinion the CCTV Camera and Video Recorders imported together in sets will appropriately be classifiable under Tariff item **8525.80.00**.

Yours faithfully

Shabana Bibi

for Chief Executive Officer
