Dear Sir,

Re: Tariff Classification Opinion – Trampoline Cloth

We refer to your application for Tariff Classification Opinion on Trampoline Cloth for Boat Canopy on behalf of your client Westside Rigging Wire Limited.

1. Trampoline Mesh, heavy duty Tramp and extra heavy duty Super Tramp as per sample submitted are of PVC material in mesh with thick vinyl coating on both sides, manufactured and produced in length mostly for industrial purpose. The product falls under heading 3921 and in our opinion it is appropriately classifiable under Tariff item **3921.12.10**.
2. Trampoline cloth is also made from poly propylene material. According to the sample, these are also plastic mesh sheet in cellular form that falls under heading 3921 but is not coated hence in our opinion it is classifiable under Tariff item **3921.12.90**.

I hope above clarifies any doubt regarding the classification of Trampoline Cloth.

Yours faithfully

Shabana Bibi
