Suva.

Attention: Anthony Yee

Dear Sir

RE: Tariff Opinion "Jastex Brochure/Menu Holder"

We refer to your application dated 05 May 2010 for tariff classification opinion you have requested for brochure and menu holder.

Examination of the sample provided revealed that these products are made from acrylic material and are ideal for displaying brochure, menu and other displaying literature. These items are articles of heading 3926.

Therefore in our opinion Jastex Brochure and Menu Holders are appropriately classifiable under 3926.90.90.

We hope the above decision clarifies your doubt and for any clarification please liaise with our Tariff and Trade Division, Suva. Please make arrangement to collect the sample that was forwarded with your application.

Thank you.

Yours faithfully

Jonetani.Vuto
