Dear Sir

Re: Tariff Classification Opinion on Cut Used Motor Vehicles

Reference is made to your application for tariff classification opinion on the above subject.

Upon examination of your shipment we found that the items in question are not nose cuts; a nose cut constitutes a bumper, front lights, radiator and grill. In fact they are various used motor vehicle cut up into segment.

The cut segments consist of components such as hub, suspension, engine, gear box and dashboard with steering. Hence in our opinion these segments are correctly classified under HS 8708.99.10.

Trust we have clarified our stand and resolved the tariff classification in this regard.

Yours faithfully

Rishi Deo
for Chief Executive Officer
Fiji Islands Revenue & Customs Authority
