Dear Sir

Re: Tariff Classification Opinion-Plastic Bar Chair

Reference is made to your application dated 18 December 2007 wherein seeking our opinion on the above subject.

Examination of the sample submitted revealed that the Bar Chair is a light weight plastic component used in the building industry to support steel reinforcement inside the concrete casting bed, thus correctly classified under HS Code 3926.90.90.

We hope the above decision clarifies your doubt and for any clarification you can liaise with our Tariff and Trade Division, Suva. Please make an arrangement to uplift your sample from this office.

Thank you.

Yours faithfully

Jonetani.Vuto
