Dear Sir

Re: Tariff Classification Opinion- Stainless Steel Pipes

Reference is made to your application for tariff classification opinion on various sizes of stainless steel pipes.

According to information provided you intend to import various sizes of stainless steel pipes. These are seamless stainless steel tubes produced through extrusions. Extruded tubes are formed in a cold process as per information provided by the importer and are used for railings and in the construction industry.

The pipe is of a circular cross section, the internal diameter of which does not exceed 63.50 mm and a wall thickness of 1.66mm. The effective date of this classification opinion shall be the date of this letter.

With the application of Interpretative Rule 1 & 6, in our opinion these are classified as follows

Item	Description	Qty	Tariff classification
1	63.10 x 1.6mm thick 600 grit x 6 mtrs pipe per length	120 L	7304.41.10
2	50.80 x 106mm thick 600 grit x 6 mtrs pipe per length	50 L	7304.41.10
3	38.10 x 1.6mm thick 600 grit x 6 mtrs pipe per length	120L	7304.41.10
4	31.80 x 1.6mm thick 600 grit x 6 mtrs pipe per length	30 L	7304.41.10
5	160 x 1.6mm thick 600 grit x 6 mtrs pipe per length	50 L	7304.41.90

I hope the above clarifies Tariff Classification opinion on the above product.

Yours faithfully

Rishi Deo

For Chief Executive Officer
