Dear Sir

Re: Tariff Classification Opinion – Truck in cut segments

We refer to your application seeking tariff classification opinion for truck cut in segments on behalf of your client Bhimas Digging.

According to the examination report by Lautoka customs and photographs submitted, the truck is cut into four segments. Two segments of the truck are imported with cab, engine, differential and springs while the middle and back part of chassis has not been imported.

In our opinion the truck cut into segments are appropriately classifiable under Tariff item **8708.99.10**.

I hope the above clarifies your doubt regarding classification of the above items.

Yours faithfully

[Inayat Hussain]

for Chief Executive Officer
